Quality

Quality Objectives:

We consider three elements to be essential for the overall quality of the company services :

- » Independence & Objectivity
- » Technical & Scientific Quality
- » Practical Benefits to Clients.

Our Quality Standards:

The bitterness of poor quality remains long after low pricing is forgotten. So, we follow strong measure of quality checking. Understanding Customers requirement and ensuring to supply as per these requirements is realized with the help of Quality Assurance and Quality Control at **Mahindra Metal Corporation** Across the entire business chain of supplies, operations and marketing appropriate quality assurance systems are in place to ensure correctness at each step of the cycle.

In our philosophy, quality is not only the durability and defect free nature of product but its utility and applicability to satisfy the sole purpose for which it was bought. Thus, we are committed to produce products, which can satisfy different requirements and purposes. We have adopted stringent quality control measures to ensure superior quality and zero defects products. Quality is checked at different stages of production and supply and the raw material we use is sourced only from reliable and established vendors.
